ABOUT

I am a digital content creator with knowledge in web technologies, graphic design, and a broader understanding of IT (system administration, networking, hardware work). I graduated from Baltaci Secondary School, where I gained comprehensive technical knowledge. I enjoy combining creativity with technical skills and am constantly working on my professional growth.

EXPERIENCE

IT Specialist, Czech Wool company s.r.o.   Zlín
Mar 2025 – Present

In my role, I combine IT infrastructure management with the development of internal applications. I provide technical support, system maintenance, and develop software solutions that simplify business processes. Due to the broad scope of tasks, I have experience with IT across all levels – from day-to-day operations to the design and implementation of custom tools.

Web editor, Onio s.r.o | Pneumatiky.cz   Brno
Jun 2023 – Aug 2024

Creation and updating of content on websites. Checking functionalities on the website. Collaboration on the implementation of the tire testing project (uploading data to the database and researching sources).

EDUCATION

Baltaci Vocational School s.r.o Information Technology   Zlín
Sep 2020 – May 2024

Studying computer science has allowed me to gain experience in software design, web and mobile application development, working with hardware, and other areas of IT.

COURSES

Foundational C#, Microsoft
Nov 2024 – Nov 2024

INTERNSHIPS

UI designer, B2A SOFTWARE DEVELOPMENT S.R.O.   Zlín
May 2022 – May 2022

I designed the user interface of an interactive application in Figma intended for healthcare personnel, focusing on clarity, ease of use, and quick access to patient data in order to streamline their daily tasks.
